

Off-the-shelf patterns available from stock for immediate shipment.

gSource is more than a source for creating custom instruments in a timely and economical manner.

gSource provides nearly **3,500 standard instrument patterns, with the majority available from stock** for immediate shipment. A total of over 35,000 instruments are currently stocked in our warehouse. These are primarily used in orthopedic and spinal procedures, as well as in general surgery.

To see our product offering, request our reSource catalog or view it on-line at www.gSource.com.

gSource off-the-shelf instruments can be a relied upon source to consider for use in:

- Fulfilling sales rep requests.
- Your labs or training centers.
- Your product development research needs.
- Completing instrument sets.

gSource instruments are crafted from German stainless steel or machined from U.S. surgical stainless steel, and recognized by their finely finished surface. They are designed to perform with precise surgical function and conceived to be affordable.

Every instrument must pass detailed Quality Assurance tests before it can be sold. All standard instruments are guaranteed for life against manufacturing defects of material and workmanship. Any instrument proving to be defective will be replaced or the purchase price refunded.

Your company's image depends on the quality of your products. gSource is a trusted and reliable partner to many world leaders in orthopedics and spine. We are committed to being a valuable business partner, always providing a real return on investment.

Please contact us for a quote on the instruments needed for your project.
